

PROJECT OBJECTIVE

Team ID	PNT2022TMID41168
Project Name	A Novel method for handwritten digit recognition system

The objectives:

- To be familiar with the basic ideas and methods behind artificial intelligence and convolutional neural networks.
- In order to comprehend Deep Learning algorithms.
- To develop a thorough knowledge of image data.
- To use a sequential modelling approach.
- To utilise Keras's capabilities
- Utilizing image processing methods
- Be familiar with how to use the Flask framework to create a web application.
